

A close-up photograph of a hand holding a black metal flashlight. The flashlight has a silver oval logo with the word 'Dawes' in a serif font. There are gold-colored decorative swirls on the body of the flashlight. The hand is positioned to hold the flashlight, with the thumb and index finger visible. The background is dark and out of focus.

Dawes

*Hand built,  
for the life you lead.*

# Dawes '85

For more than 50 years, Dawes have not only been handbuilding cycles to the very highest standards, but also building a reputation for quality and craftsmanship, a reputation carried on today. In an industry where sadly, such standards have often been replaced by mass production techniques, we at Dawes are proud of our 'Handbuilt' system, because the strength and reliability, the sheer quality of a Dawes cycle can never be achieved by robots; but only by the experience and skills of people who take a pride in their craft... upholders of the Dawes tradition – a lasting inheritance. It's the meticulous attention to detail that sets a Dawes cycle above the rest. Component suppliers from Britain and around the world are carefully chosen, their quality continuously monitored. But it's here in Tyseley, Birmingham where all Dawes frames and forks are made. Handbuilt by craftsman using the finest specially selected lightweight carbon steel tubing, and for top of the range models, the famous extra light Reynolds '531' tubing is used. First the tubes are handpicked from stock, then mitred, assembled and brazed with low temperature phosphor bronze welds to ensure the minimum of heat distortion.

A Dawes bike isn't just well built, it looks great too, and those looks are made to last. Every frame will undergo no less than 10 separate stages before emerging from the paint shop in its true colours, ready for the finishing touch – lugs and other details are coachlined in gold leaf paint using an artist's sable brush.

Now for assembly, not on a production line, but at craftsmans' benches, where each man is responsible for ensuring that every component fits together perfectly.

Only after a thorough final check to ensure that the whole machine functions smoothly and efficiently can it carry the famous Dawes legend "Handbuilt in England".

Whatever kind of life you lead, you'll find the bike to lead you to it, here, in our 1985 brochure.

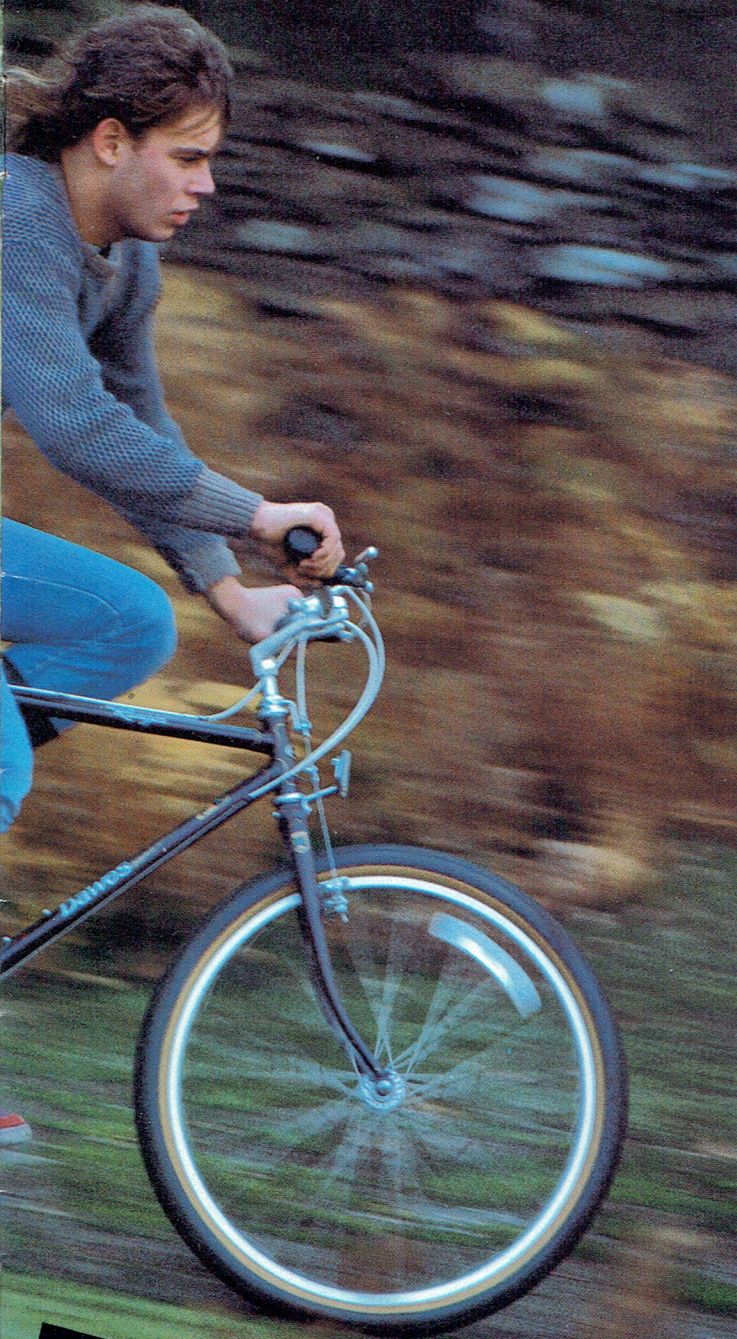

*Hand built,  
for the life you lead.*

## Handbuilt to take

# the Wild side of life.

Clunkers! They first appeared in America in the mid 70's, with component parts taken from a variety of sources; heavy 'beach cruiser' steel frames, 'cowhorn' handlebars, and gears from ordinary road bikes, their appearance aptly matched their name . . . yet these machines gave their riders an unmatched cycling experience, careering down mountain tracks in the toughest conditions, even though the bikes themselves weren't built to withstand the rough handling.

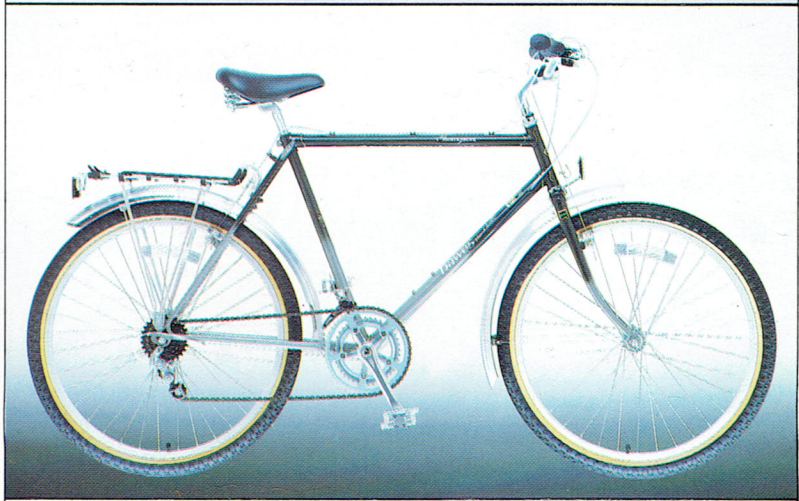

Nevertheless the enthusiasm for this kind of excitement continued and grew, machines were made that could take the punishment meted out to them, with lighter stronger frames, specialist components, more powerful brakes and low geared transmission for riding up those mountain tracks – a whole new breed of bike was born.

Now Dawes introduce a new generation of All Terrain Bikes, handbuilt to take the wild side of life.

The Ranger. A machine for those who demand uncompromising quality and top specification: wide range 15 speed gears with handlebar mounted thumb shifters, to tackle the steepest gradients. A long wheelbase frame built entirely from Reynolds 531, lightweight and flexible yet tough enough to take all the knocks; wide alloy 'bars fat tyres and cantilever brakes to deliver all the control and stopping power you'll need when its downhill all the way.

RANGER

COUNTRYMAN

With a host of special features and Dawes bike building skills as it's heritage The Ranger is truly a machine handbuilt to stand out from the crowd.

The Countryman. The ultimate combination of All Terrain Bike and the classic touring qualities that Dawes are famous for.

The Countryman gives you the best of both worlds. Even when fully laden, the 10 speed alloy transmission and lightweight Reynolds 531 frame makes road riding effortless, and the wide fat tyres smooth out the often pot-holed surface, enabling you to cover mile after mile of highway. But the Countryman isn't just a superb touring machine. Take a turn off the beaten track onto the paths and bridleways, and you'll quickly experience the other side of it's character. The fat tyres now hold their grip whatever the surface, sprung saddle and wide platform pedals ensure you stay comfortably on top of every situation. The Countryman will take you into a different world – the real heart of the country.

The wild side of life –  
The Ranger and Countryman  
are both handbuilt to take it.

# The Great Escape

For those who like to go where they want and do as they please, there's a Dawes bike handbuilt to fit the bill, combining the lightweight features of a racing machine with the comfort and stability demanded for long distance riding and regular town use.

Touring, the freedom of the open road – everything with which the Dawes name is synonymous. Take the Galaxy, proven over millions of miles, handbuilt entirely from Reynolds 531 butted tube and using top quality alloy components, it is the most famous name in touring cycles. The ladies version also incorporates all the features which make the Galaxy such a firm favourite.

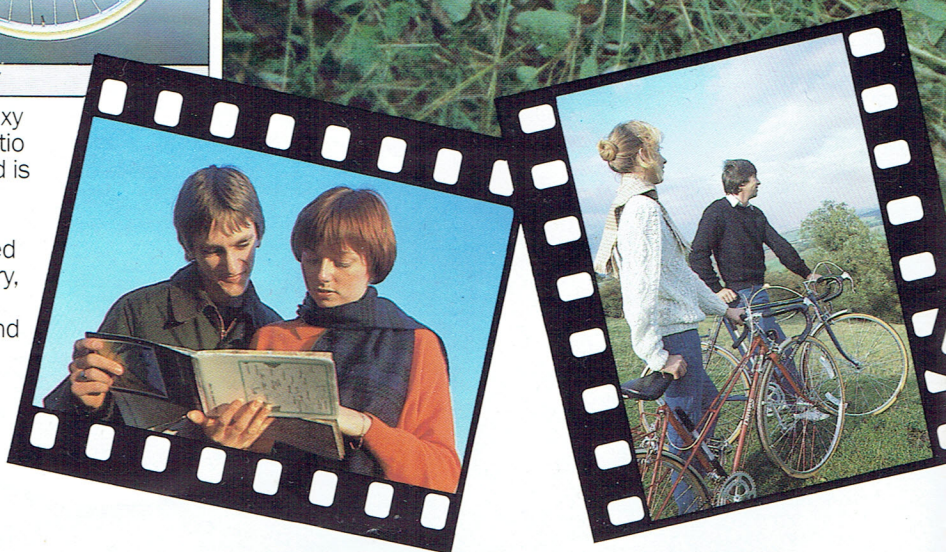

GALAXY/LADY GALAXY (ILLUSTRATED)

SUPER GALAXY/LADY SUPER GALAXY

For the particularly discerning the Super Galaxy boasts an up-rated transmission with extra wide ratio gears, Brooks leather saddle and comfort grips and is finished in distinguished Burnt Cherry colourway.

The ultimate touring machine however, is the 'Classic'. The specification incorporates an 18 speed transmission and the very best in alloy componentry, assembled entirely of Reynolds 531 butted tubing, and kitted out with full dynamo lighting, and front and rear panniers, the name says it all, this is indeed a 'classic' model.

CLASSIC

WARWICK

AMBASSADOR/GAZELLE

Another Dawes cycle equally at home in both town and country is the Warwick, a stylish machine, finished in Glacier Blue and fully equipped with dynamo lighting, fitted lock, propstand and alloy carrier.

Similarly well equipped are the Ambassador and Gazelle, both totally practical and efficient, fitted with straight handlebars, easy-to-use 6 speed Positron gears and like the Warwick, both models have Reynolds 531 forks for a more responsive ride.

When you decide to make 'The Great Escape', decide on a Dawes, they're handbuilt to take you there.

# Life in the

FIREBALL

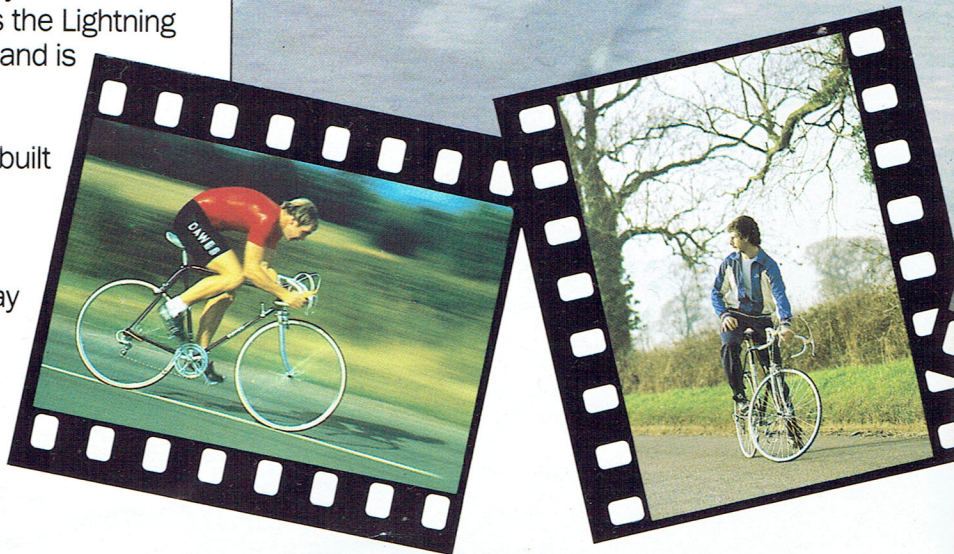

LIGHTNING

Whether you're a competitive cycling enthusiast or ride strictly for fun, then Dawes have the machine you need. Each one handbuilt to demanding specifications. Each one handbuilt to give superb handling characteristics and a lively more responsive ride.

**Fireball.** This machine's striking looks are matched by its stunning performance. Featuring alloy wheels, with quick release front, alloy chainset and matching white racing saddle and leather look tape. For sheer cycling excitement The Fireball is hard to beat.

**Lightning.** A superb machine for anyone who sees cycling as more than just a means of getting from A to B. The Lightning's impressive specification means you get there fast, and in style. Finished in Misty Blue Sunburst, and equipped with comfort grips the Lightning comes in frame sizes from 18½" to 25¼" and is understandably our most popular sports machine.

Imperial, Renown, Jaguar, three handbuilt machines designed to make your pulse quicken. Reynolds 531 tubing and alloy components are used extensively throughout. With so much awareness today of health and fitness, these machines are ideal for competitive cyclists, keep fit enthusiasts and leisure riders alike.

# fast lane

IMPERIAL

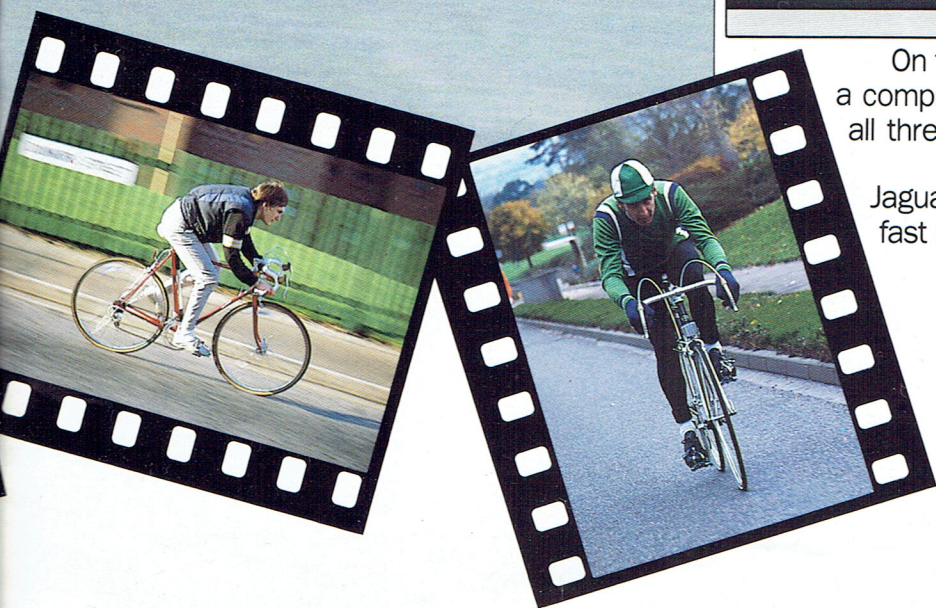

RENOWN

JAGUAR

On the back page of the brochure you will find a comprehensive list giving specification details on all three of these exhilarating machines.

Fireball, Lightning, Imperial, Renown or Jaguar; choose any one and enjoy life in the fast lane.

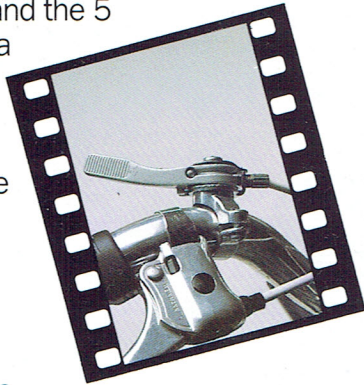

**Dawes**

FINESSE

Smart, stylish, practical. It's around town that these Dawes bikes really set the pace. Take the Finesse, a sparkling addition to the range of Dawes ladies cycles. Straight 'Warwick' style handlebars give a more upright riding position and the 5 speed derailleur gears have a simple 'thumb-shift' lever for easy operation. Complete with rear carrier and an anatomically designed saddle for extra comfort. This is an ideal ladies sports and commuting model.

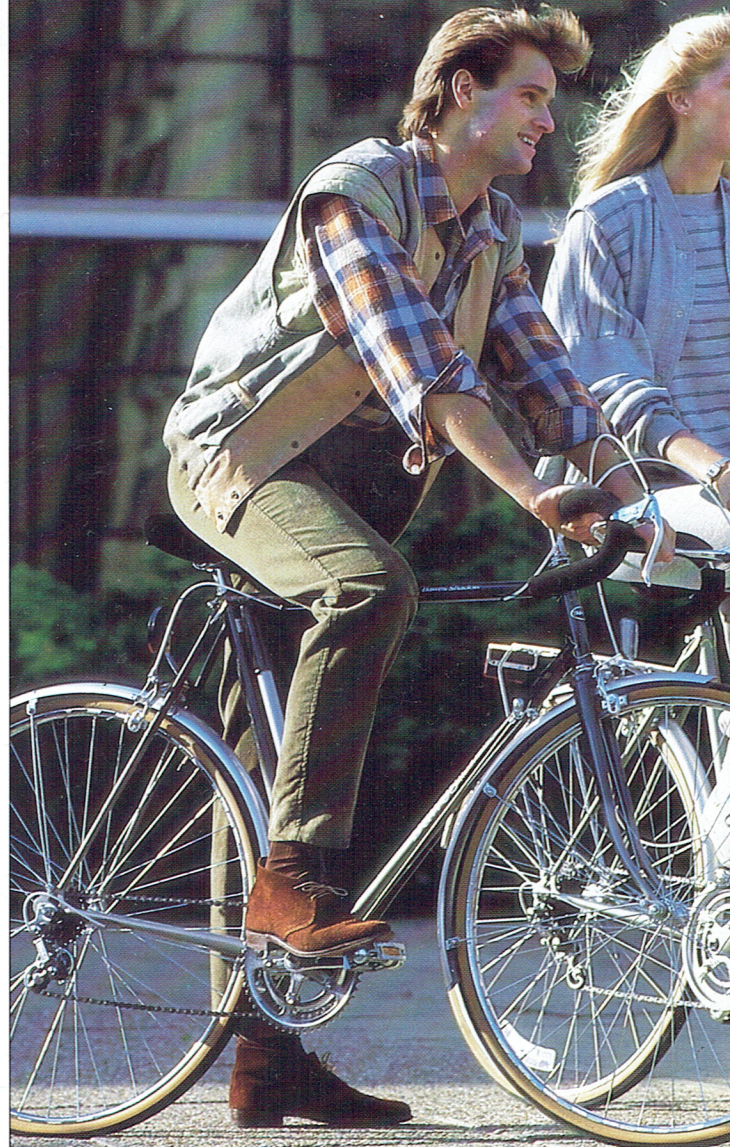

Debutante 5 and Debutante 10, two very fashionable and very feminine

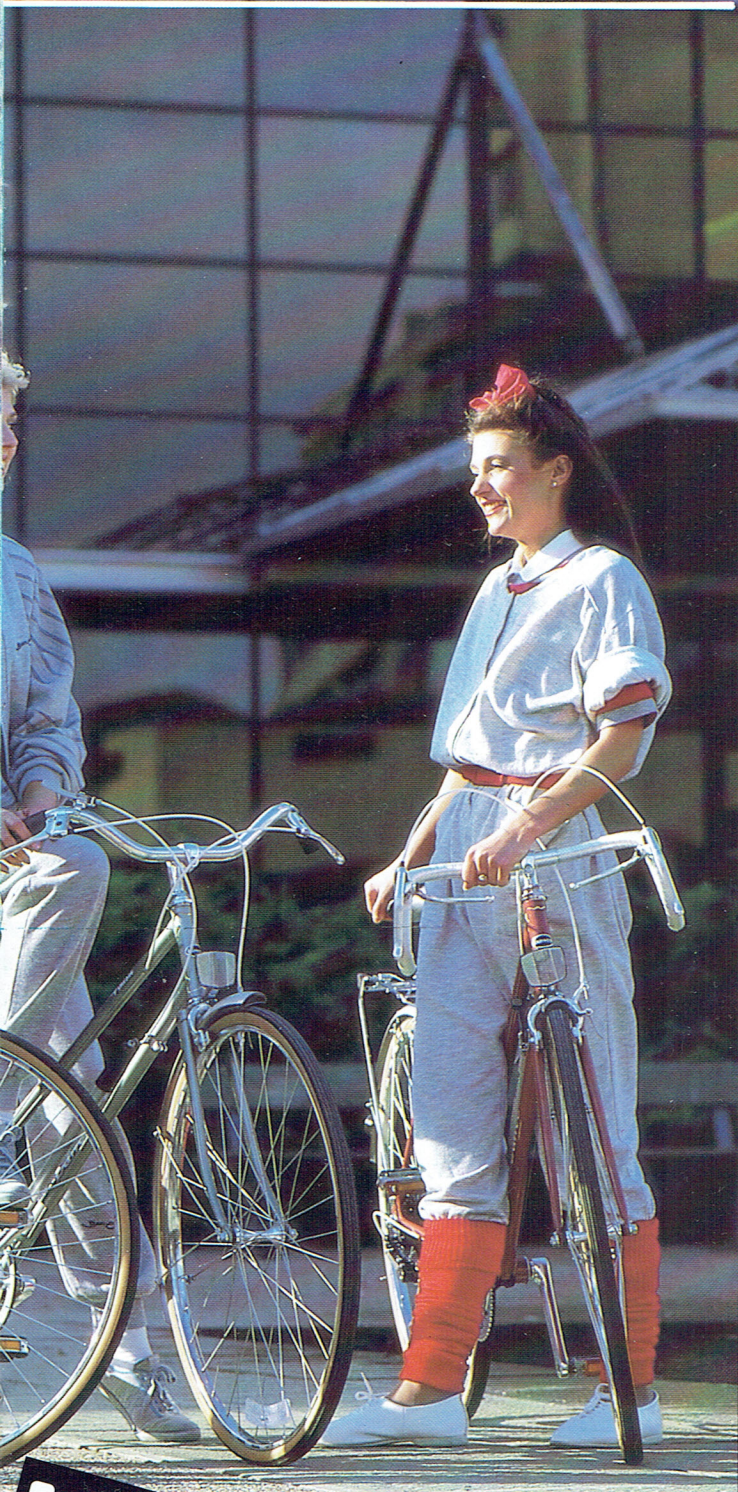

DEBUTANTE

sports cycles. Finished in Misty Blue and with 5 speed derailleur gears the Debutante 5 combines elegant styling with lively performance, making it a very popular choice for practical in-town use as well as cycling purely for pleasure. Every bit as attractive in English Rose colourway, the Debutante 10 offers 10 speed derailleur gearing for even greater flexibility in traffic or on the open road. With both models sharing such features as: a handy rear carrier, touring handlebars with duo-

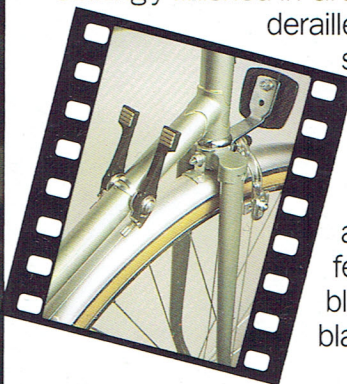

# THE TOWN

SHADOW/LADY SHADOW

levers for safe, easy braking and matching components, it's not difficult to appreciate their appeal, but rather more difficult to choose between them!

Sophistication and style hallmark the Shadow, strikingly finished in Grey Sunburst effect, this 10 speed derailleur touring cycle really sets the standard wherever you go. As

well as the gents model shown in the large photograph, there is also the Lady Shadow which comes in 3 frame sizes including a 23", and has all the same features, including, silver and black trim, black suede saddle and black comfort grips.

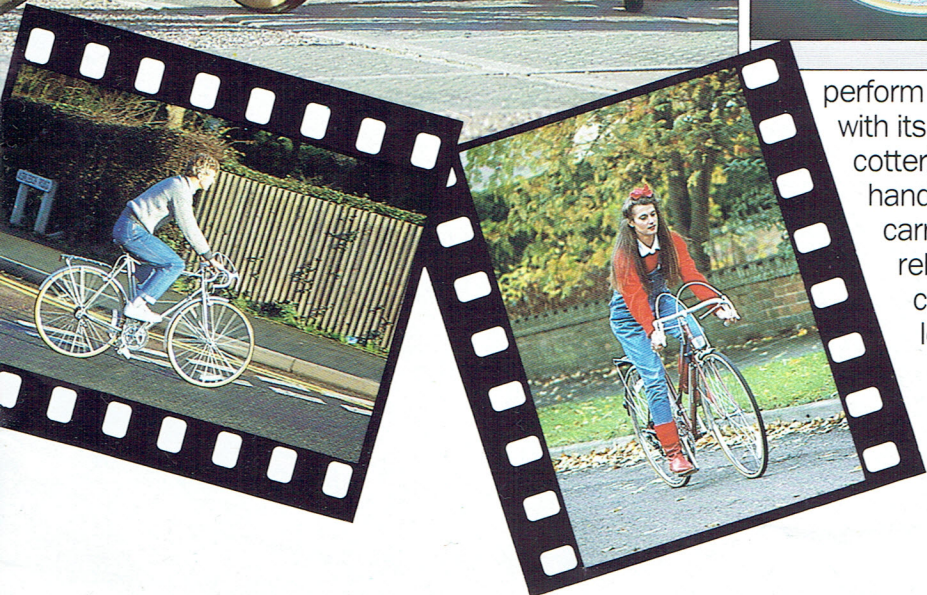

When you need a bike that will

DISCOVERY

perform reliably day after day invest in the Discovery, with its special Dawes frame and forks, 10 speed cotterless chainset, silver mudguards, 'Randonneur' handlebars with 'duo'-levers and a useful rear carrier, it's designed to give years of dependable, reliable service. Finished in a new Crystal Green colourway, The Discovery will keep it's good looks all of it's hard working life.

Dawes quality and reliability ensure that you'll be the talk of the town for a very long time to come.

If choosing bicycles for the whole family is a problem, Dawes have the solution. In the Dawes Family Album there's a bike to suit everyone.

Dawes Kingpin range, set the standard by which all bikes of this kind are judged. The one in our main photograph is the Kingpin Folder, it goes where others can't, in a boot, on a boat, wherever space is at a premium, it folds and unfolds simply and quickly for total convenience. Another Kingpin in the range is the 'Original' which comes in Burnt Cherry or Glacier Blue colourways, and includes a detachable holdall.

The Kingpin Shopper, has all the superior design features of the original plus front carrier and removable plastic-coated basket, and is finished in Indiana Red. Junior Kingpins, single speed in Pacific

# THE DAWES FAMILY

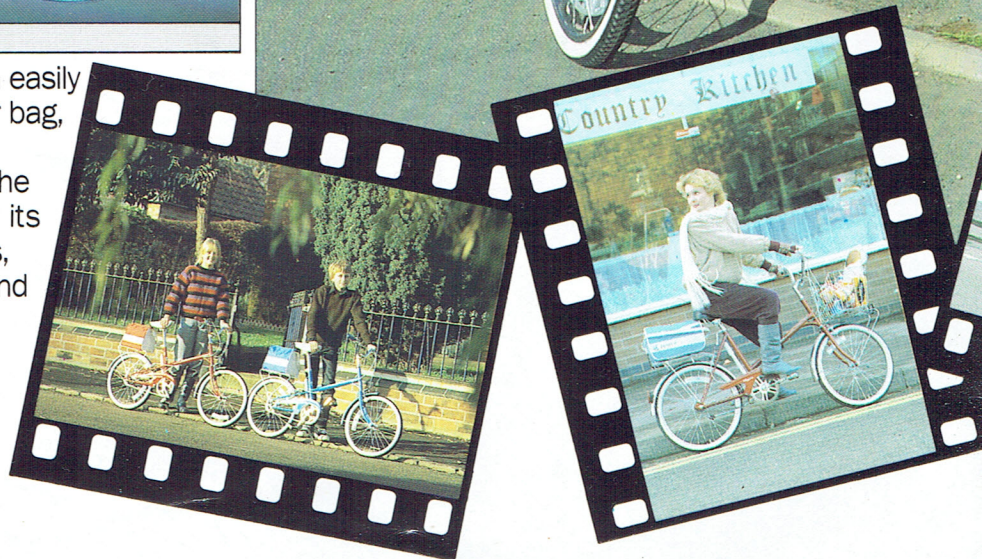

KINGPIN ORIGINAL (SHOPPER & FOLDER ALSO AVAILABLE)

DIPLOMA/LADY DIPLOMA

Blue and 3 speed in Fire Red, feature an easily removable, colour co-ordinated shoulder bag, white wall tyres and matching handlebar grips. It's stylish enough to satisfy even the most particular 6 - 11 year old, and with its low centre of gravity, sensible gear ratios, reflectors, strong alloy brakes with ball-end levers, and Dawes guarantee it's safe enough to satisfy the most particular parent.

Lady Diploma. Elegant and comfortable, a luxury lightweight that's

# Family Album

easy to ride and maintain; features include: handy rear carrier, a full chainguard to protect clothes, straight handlebars, 3 speed easily operated hub gears and 3 frame sizes including a 23". Even if you

haven't ridden a bike for years, the Lady Diploma will get you from A to B with the minimum of fuss, in maximum comfort.

There's also a gents version, (as illustrated) smart, practical and handbuilt for long active service.

Real sports cycles in 18½" frame sizes. These are designed to really turn heads and be the envy of the neighbourhood. Easy Rider in Fire Red. The Princess in English Rose. The colours are terrific – so are their features; handbuilt 'Supertube' lugged frames, alloy racing handlebars, side pull brakes and 'duo'-levers.

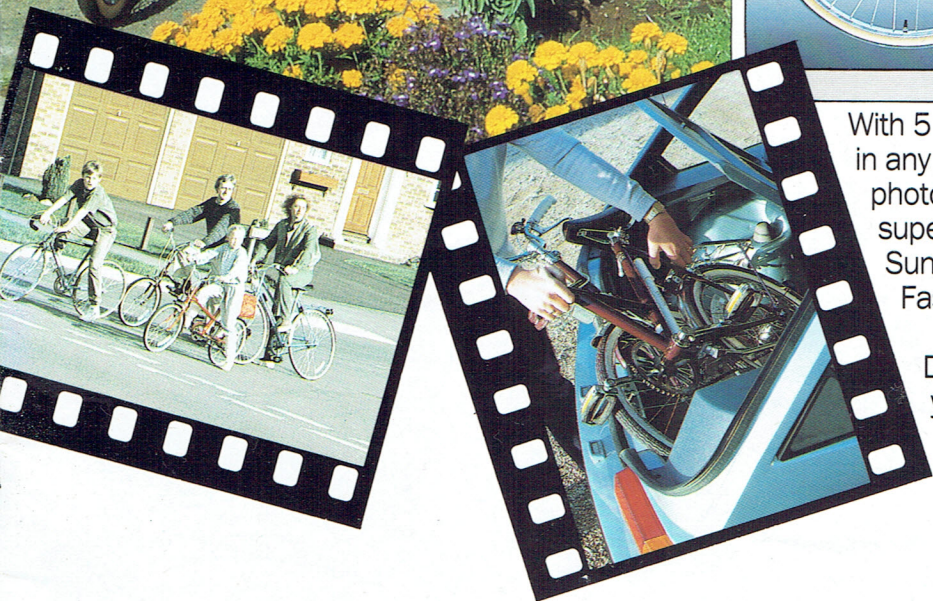

EASY RIDER

PRINCESS

With 5 speed derailleurs gears, they are the leaders in any race. The boy's bike shown in the main photograph is an 18½" frame version of the superb Lightning – finished in Misty Blue Sunburst – details of which are in the 'Life in the Fast Lane' pages.

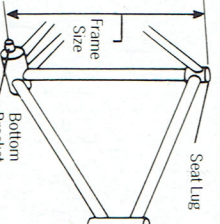

Whichever models you choose from the Dawes Family Album you can look forward to years of cycling pleasure.

**MEASURING UP FOR YOUR DAWES**

For your comfort and safety it is essential when you purchase your cycle, particularly for children, to pay close attention to the dealers advice on cycle and frame size. As a rule of thumb, riders must be able to straddle the bicycle with at least one inch clearance above the top tube. As a guide, frame size is related to inside leg measurement (the distance from the crotch to the ground in stockinged feet).

**DAWES GUARANTEE**

Dawes Cycles Ltd. will repair and exchange parts of their cycles, free of charge in the event of a manufacturing defect, as follows:  
**PARTS:** New parts in exchange for defective parts (except for Tyres and tubes) for one year after original purchase.  
**FRAMES AND FRAME SIZES:** New fork and/or frame in exchange for defective item for the life of the cycle. A purchase receipt or other proof of date of original consumer purchase will be required before warranty performance is rendered. Replacement Framesets will be supplied in Dawes' current colours only.  
 The warranty covers normal consumer use and does not cover failure which results from alteration, accident, misuse, abuse, neglect, improper assembly, maintenance or commercial use.  
 This warranty gives you specific legal rights and you may also have other rights.  
 If a problem with a Dawes' cycle develops during or after the warranty period, contact your Dawes' dealer who will handle the matter to your satisfaction.

**DAWES GUARANTEE**

Constant development is always in progress to ensure that manufacture of the range remains at the forefront and to that end Dawes Cycles Ltd. reserve the right to adjust prices, change colours and amend specifications and substitute fittings without giving prior notice. Before purchase, please check with your dealer in case a change in specification has been made.
